

YOUR GUIDE TO:  
PLANTING HANGING BASKETS  
WITH

# Katie's Garden plant centre

For hanging baskets that are the envy of the neighbourhood, follow the Katie's Garden recipe!

## 1. THE CENTREPIECE

Choose an upright plant for the middle, to give height and a full shape to your basket.

Examples: Zonal Geranium, Nonstop Begonia, Upright Fuchsia.

## 2. THE TRAILER

For that really impressive cascading effect you will need a trailing foliage plant round the edge.

Examples: Nepeta, Lysimachia, Convolvulus, Dichondra, Helichrysum.

## 3. THE FLOWERS!

This is when you really make your mark! All matching, complementary colours or mix it up!

For a 14" basket we recommend choosing three trailing plants; add another for a 16" basket.

Examples: the options are so numerous at Katie's Garden, you will feel like a child in a sweet shop!

## 4. THE FILLERS

You want your baskets to have an abundance of blooms, so add some upright and semi-trailers that will mix through the other plants to really fill it out. For a 14" basket you may want one to three.

Examples: Verbena, Bidens, Bacopa, Impatiens (busy lizzie), Diascia, Brachyscombe, Nemesia.

## SHADE BASKETS

Fuchsias, Begonias and Busy Lizzies are best; Petunias, Lobelias and Bacopas can also perform well.

NATURE BASKETS Visit our website!

## EASY-CARE BASKETS

Zonal and Ivy (trailing) Geraniums need the least watering.

Begonias and Fuchsias need very little deadheading

Buy your plants from the people who grew them!

Knowledgeable service and helpful advice.

Just one mile from the A12 Foxhall roundabout.
